## **OCTO MK2 – Datasheet**

8 universe eDMX to LED pixel controller with network chaining in a compact 4-module DIN-rail form factor.

ENTTEC's OCTO is a robust and reliable installation grade LED controller engineered to take any architectural, commercial or entertainment project to the next level.

With 8 universes of eDMX to pixel protocol conversion and network chaining between devices, the OCTO allows for fast deployment of LED strips and pixel dot systems with compatibility with over 20 protocols.

The OCTO is packed with installer-friendly features such as an identify button to check correct wiring, temperature monitoring, a wide input voltage range (5-60v) and intuitive configuration and management through its localhost web interface. All contained within a slim electrically isolated 4 DIN form factor.

Its inbuilt Fx engine allows users to edit and create presets, using the OCTO's web interface that can be configured to run standalone at power up without a DMX source.

#### **Features**

Document Updated: Dec 2021

- Two \* 4-universe pixel outputs with Data and Clock support.
- Support for up to 8 universes of Art-Net, sACN, KiNet and ESP.
- **■** Easily extendable network daisy chain ethernet connection through multiple devices.
- **■** DHCP or Static IP address support.
- Multiple pixel protocols supported, see: www.enttec.com/support/supported-led-pixelprotocols/.
- Surface or TS35 DIN rail mounting option.
- Intuitive device configuration and updates through the inbuilt web interface.
- **■** Test/Reset button allows installers to quickly check wiring is correct without requiring a network connection.
- Simple Fx generator mode to create and execute preset effects on the fly, configurable to play from power up.
- Grouping functionality to reduce input channel count.

## ENTTEC

**Specification** 

Specification			
	2* Network (RJ45)		
Connectors	2* SPI Output (4-Pin phoenix)		
	1* Power (2-Pin phoenix)		
IP rating	IP20		
	Forward facing LED indicator		
LED indicators	Network link / activity (integrated into RJ45 ports)		
eDMX input protocol	Art-Net		sACN
	KiNet		ESP
Data output type	SPI (NZR) See website for all supported protocols.		
Max. eDMX -> pixel conversion per device	2048 channels		
Max. pixels	RGB	136	0 (680 per port)
controllable per device	RGBW	102	4 (512 per port)
Max. refresh rate	46 frames per second (fps)		
Network speed	10/100Base-T		
Network discovery	ENTTEC's NMU software		
Network configuration	Static (Default 192.168.0.10) / DHCP		
Integrated network switch	Yes		
Recommended network device quantity per chain	Chains of up to 8 devices give optimum synchronization between outputs		
Max. network device quantity per chain	50		
Identify / Reset button	Yes		
Configurable pixel color ordering.	Yes		
Creation of effects and presets on the device	Yes		
Play preset upon startup	Yes		
Firmware updates	Upgradable via web interface		
Input voltage	5-60V DC		
Max. power draw	5W		
Max. heat dissipation	4.5 W		
Cooling method	Convection		
Environmental	-20°C to 50°C		
operating temperature	-4°F to 1	I22°F	

Environmental operating humidity	5 to 95% (non-condensing)	
Body material	ABS plastic	
Mounting options	Surface mount	
	TS35 DIN Rail mount	
Unit dimensions	100.5*72.25*34 mm	
Unit weight	0.11kg / 0.24lbs	
Shipping dimensions	160*140*40 mm	
Shipping weight	0.18kg / 0.39lbs	
Warranty	3-year return to base manufacturer warranty	

# Certification CELKE®™

#### **Box content**

- OCTO
- 2\* WAGO connectors
- Din mounting clip

### **Phoenix Connector**

## **Safety**

- Please refer to the OCTO User Guide for wiring diagrams & Installation guidance.
- Always refer to this product's safety notes before handling or specifying it on your project.

## **Ordering information**

For further support and to browse ENTTEC's range of products visit the ENTTEC website.
